

# Prepare your clients for appointments and treatments with relaxing music

From the initial welcome, through the treatment to arranging the next appointment, help calm your clients and increase return visits.

## melodypods™

Helping clients relax before their appointment helps to make the client experience more successful.

- Melody Pods combines beautiful background music with a complete service costing less than traditional licensing.
- We have music playlists ready to go for a range of relaxing music styles to meet your brand and your client's music tastes, all with no extra location licenses to pay.
- With access to a vast library we can provide the right music for you without making the choice costly on time or money.

### Key Features:

-Let's build a music playlist that relaxes your clients and helps your receptions running smoothly. With subtle but relaxing music, along with your warm welcome and caring team, agitated clients can be calmed and prepared to see your practitioners.

-Change the music genre to match the mood at any time of day.

-Add and remove new music when everyone is ready for a change.

-Feature-rich smart phone, phablet & tablet apps designed for business background use.

-No satellite or streaming, no aerials and landlord permissions, your music always plays and stays local.

-Cost savings within a year, no proprietary network hardware to lock you into services, or additional licenses for background music or music on hold licensing.

Now there is a better way to get music working in your business at less than traditional licensing methods.

Melody Pods brings you the opportunity for innovation in music ambience and making music easier to use and manage across multiple locations.

Our music library covers all commercial needs. From relaxing music, chill-out, classical, down-tempo, to upbeat, pop, indie, rock and festive to match the mood what ever the time of day or season.

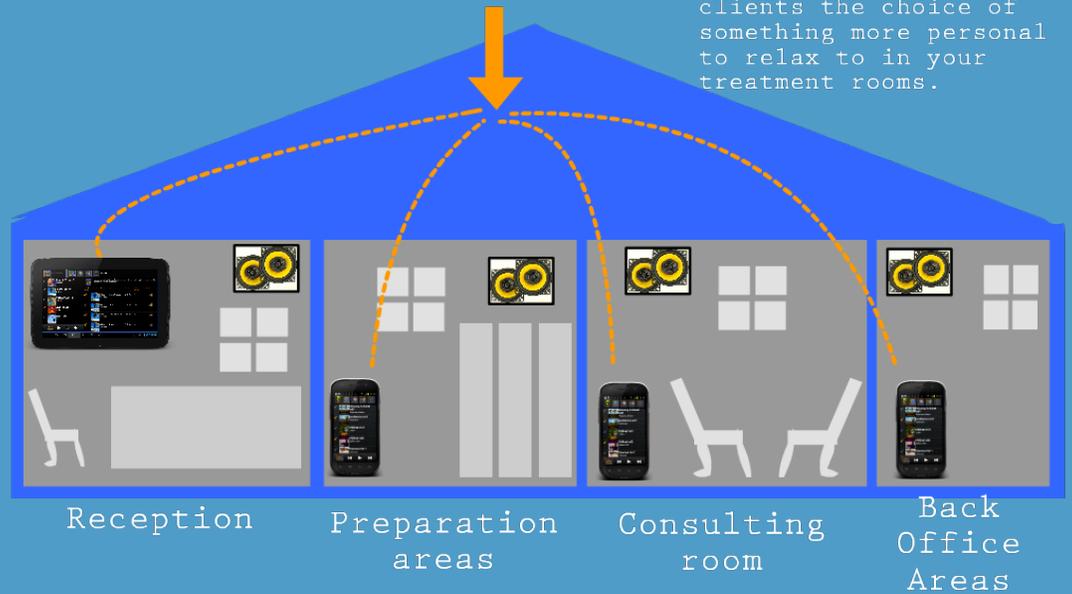

Choose the music you need for your brand and all your clients.

Alternatively work with us to define your own branded sound.

Forget the complexities of multi-channel receivers, login to your location account with as many devices as you need.

Play chillout in your reception and give your clients the choice of something more personal to relax to in your treatment rooms.
